Angela's Post

Angela Reading · Nov 22 ·

I welcome respectful debate if you read my entire post. Also, the below statements are made in my capacity as a private citizen/mother. Last night, I attended an elementary "Math Night" My 7 YO daughter, while reading posters at the school's main entrance, asked me what "polysexual" means. To say the least, I was livid.

Why are elementary schools promoting/allowing elementary KIDS to research topics of sexuality and create posters? This is not in the state elementary standards (law) nor in the BOE-approved curriculum. It's perverse and should be illegal to expose my kids to sexual content. Look up the terms, and you will see they are sexual in nature.

Also, how can my young children be accepting of people "who are sexually attracted to multiple genders"? They don't know what sex is! Are adults talking about their sexual life with my kids and looking for affirmation? Are there elementary students engaged in polyamorous or multi-gender sexual activity who need my kids to know about it and cheer them on? I am very confused and very angry.

Kids should respect differences. Kids should show kindness to all. Kids should respect and understand there are various family structures. However, kids should not be forced to learn about and accept concepts of sexuality in elementary school.

Below are some additional points:

(1) My concerns do not come from a religious perspective. They are rooted in long-standing

3:38

Angela's Post

(1) My concerns do not come from a religious perspective. They are rooted in long-standing scientific principles of age-appropriateness, parental rights, and the health and safety of elementary children (key word - children).

(2) My concerns do not come from my personal views about individual sexual identities. I don't care what anyone does in their personal life. All people are deserving of respect and dignity. I don't care who you marry or who you love. I have instilled in my children a respect for differences without having to talk about sex. It's possible.

(3) I have been told (by parents and a current NH Board member) that I should accept this because my kids will see it on social media and hear it on the playground. My kids are not on social media. And kids are only talking about it on the playground because it's being forced on them by teachers, at home, and by unsupervised social media time. With that said, It does not mean it should be endorsed by the public school system. It also does not mean I should accept it.

(4) Parents have been told that they can opt out of the health curriculum. North Hanover has done an exceptional job of modifying the health curriculum to make it as appropriate as possible. Why go through all that trouble? Clearly, there is never going to be an opt-out. Our elementary children will be exposed to sexual content without consent, even if we opt out.

(5) There is no way elementary students knew the spelling and flags for each of these identities. This means the school had open internet, which exposed them to these concepts. That's very concerning.

3:38

Angela's Post

(5) There is no way elementary students knew the spelling and flags for each of these identities. This means the school had open internet, which exposed them to these concepts. That's very concerning. There are supposed to be online search protections.

The above statements are made in my capacity as a private citizen and not in my capacity as a board member. These statements are also not representative of the board or its individual members and solely represent my personal opinions. My statements are not authorized by or written on behalf of the board. This matter involves the local public school district, I do not serve on the board.

惊呼表情 Hope Gr and 7 others

Good Morning Everyone,

I just wanted to share some thoughts after seeing Mrs. Reading's post. Her post is filled with too many logical fallacies to list. She continues to try to over sexualize things that don't need to be in an attempt to stir emotions of those that know little about the subject (such as herself) to give her arguments more power. She picked an isolated, outdated definition that leaves out physical and romantic attraction, while most organizations now define polysexual as simply an attraction to many genders and identities.

She's getting upset and angry of her own ignorance on the matter and not having the proper resources and/or education on the matter upon which she is posting about. When you start with an incorrect definition it takes you on the incorrect path and this can be seen in her "additional points".

- 1) She makes claims stating they are based on scientific principles about health and safety but proper education on terms improves understanding and inclusiveness leading to a safer, healthier environment for everyone.
- 2) She states that it is possible to talk about differences without talking about sex, yet her whole her argument was based on sexualizing a term that doesn't need to be sexualized to understand it.
- 3) She's still focused on her sexual view of the term, this time attacking teachers and parents. She fails to consider what is actually taught about the term and that children at the school might come from a family that has members that identify as poly or something else that she doesn't have knowledge or experience in.
- 4) Again she talks about sexual content when the term does not need to be sexualized.
- 5) She makes the assumption that no students in the school come from a family, attends a church or has any connection to people that are LGBTQIA+ and therefore must have gotten it from the internet at school. This logical fallacy sets the foundation for future unnecessary restrictions on media. This is a very closed minded and ignorant view that also leads to increased HIB incidents.

While she also states that this post is made in her capacity as a private citizen, it shows her underlying views and thought process when making decisions on School BOE issues and that is very concerning.

I hope everyone has a wonderfully full Thanksgiving!

I have found that Angela has posted her complaint on other Facebook pages with pictures of all the posters that show the school name and engaged in dialogue about how “horrible” and “disgusting” the display is, how upset her husband as BOE president is, and how she is pulling her children out of the school system.

At what point does this justify an ethics complaint? While she makes her required statement that these are her personal opinions, the danger her actions could pose for the community by stirring up right wing extremists is very concerning. While this was not confidential information, her sharing could needlessly injure the school and others in the community. If she had a complaint she knows the proper channels to seek redress but chose multiple social media groups.

Tina,

I will be there and have already prepared a statement in support of your daughter's poster. I have another statement to make at the Northern Burlington BoE meeting the night before. I am also reaching out to other resources in the area to gather support for this issue.

Subject: Re: No Place for Hate Meeting

I'm pretty sure she violated this district policy. I highlighted a person in the fifth paragraph. Let me know your thoughts.

Active Policies - 160 Mansfield Road East | Columbus, NJ 08022 | Phone: (609) 298-3900 BoardDocs® Pro

0169.02 BOARD MEMBER USE OF SOCIAL NETWORKS

In accordance with the School Ethics Act - N.J.S.A. 18A:12-21 et seq., Board of Education members must avoid conduct which is in violation of the public trust or which creates a justifiable impression among the public that such trust is being violated. To avoid conduct that may be in violation or perceived to be in violation of the School Ethics Act, the Board of Education adopts this Policy to provide guidance to Board members in their use of social networks.

For the purposes of this Policy, "social network(s)" shall include, but not be limited to: Internet blogs, electronic bulletin boards, emails, social networking websites, text messages, or any other online platform where people may post or communicate interests, opinions, or any other information that may be viewed by others with or without permission from the person making such post or re-publishing such post. "Social networks" also means an Internet-based service that allows individuals to: construct a public or semi-public profile within a bounded system created by the service; create a list of other users with whom they share a connection within the system; and view and navigate their list of connections and those made by others within the system.

For the purposes of this Policy, "use of a social network" shall include, but not be limited to: posting to a social network, reposting another person's post to a social network, messaging, or any other publication of material on a social network.

Nothing in this Policy prevents a Board of Education member from using a social network. However, a Board member must avoid conduct on a social network that would violate the School Ethics Act – N.J.S.A. 18A:12-21 et seq., which includes the Code of Ethics for Board Members. Board members should be advised communications, publications, photographs, and any other information posted by the Board member or reposted by the Board member on a social network could violate the School Ethics Act and be cause for sanctions in accordance with the law.

While this Policy respects the right of Board members to use social networks, Board members shall recognize they are held to a higher standard than the general public with regard to standards of conduct and ethics. A Board member's use of social networks shall not damage the reputation of the school district, employees, students, or their families. Board members who use social networks shall ensure their conduct is appropriate for a Board of Education member. Board members should exercise care in setting appropriate boundaries between their personal and public online behavior, understanding what is private in the digital world often has the possibility of becoming public, even without their knowledge or consent.

Board members should carefully review the privacy settings on social networks they use and exercise care and good judgment when posting content and information. When using social networks, Board members are advised to:

1. Not post anything that would violate any of the district's policies for Board members;

2. Uphold the district's value of respect for any individual(s) and avoid making defamatory statements about the Board of Education, the school district, employees, students, or their families;
3. Not disclose any confidential information about the school district or confidential information obtained as a result of being a Board member, about any individual(s) or organization, including students and/or their families;
4. Not use or refer to their Board of Education title or position when soliciting for a business organization that he or she or any immediate family member has an interest in, as well as posting or referencing any confidential information regarding the Board of Education or the school district obtained through their Board membership, unless authorized by law;
5. Refrain from having communications through social networks with other Board members regarding any Board of Education business to avoid any potential violation of the New Jersey Open Public Meetings Act;
6. Not respond to any postings regarding Board of Education or school district business or respond to any question or inquiry posted to the Board member or posted on any social network regarding Board of Education or school district business and shall refer any such questions or inquiries to the Superintendent of Schools to address, as appropriate; or
7. Not post any information on a social network determined by the New Jersey School Ethics Commission to be a violation of the New Jersey School Ethics Act.

A Board member shall comply with all Board policies regarding acceptable use of computers and computer networks whenever a Board member is using a Board of Education electronic device.

If the Board or Superintendent believes a Board member's activity on any social network may violate the Board's policies or the New Jersey School Ethics Act, the Board or Superintendent may request the Board member cease such activity.

This Policy has been developed and adopted by this Board to provide guidance and direction to a Board member to avoid actual and/or a perceived appearance of inappropriate conduct or conduct prohibited by the School Ethics Act while using social networks.

Anna,

I concur. It is great to hear that others are supportive. I know some are hesitant to speak out but the more we do and others will gain confidence to share their views. I think we need to keep the pressure on until her disruptive and dangerous actions cease, so please share any historical items to help us shape our messaging for those not aware and ones like myself that moved here recently.

Catherine,

Thanks for your thoughts. I also think Bond would be a great fit for President! I submitted a complaint to Dr Z tonight for him to request Angela to remove her posts for violating the District bylaws. More positive things are going to happen tomorrow and I will let the group know details once it happens.

Chris

Subject: FW: [Non-DoD Source] Fw: No Place for Hate Meeting

Sir,

Angela Reading's first post about the posters at UES was in a Facebook group named Northern Burlington (the first 4 attached pictures). She later posted in the Facebook group NJ Fresh Faced Schools. The first group is private limiting the visibility to its 129 members. The second group is a public group. Our initial concern is she needlessly listed the county and township of the school while sharing pictures of the posters that identify the school's name: UES. This gives a road map to anyone looking to make a statement, political, ideological, or even violent. Earlier today she took screenshots (Reading1.png attached) she received from someone in the (private) Northern Burlington Parents group and blacked out her friends' names and left the names of parents that did not agree with her views and added them to her public post. This places targets on many parents as well as the schools, their personnel and students. There is a growing concern among many parents at all of these schools that her rhetoric is going inspire someone to act out.

For situational awareness: Angela is the current Vice President of the Northern Burlington BOE, Her husband's sister Kim is also a board member. Angela's husband (Bryan) is the current president of the North Hanover BOE.

Very Respectfully,

Christopher Schilling

One of the NB Parents sent the below email showing how far reaching
Angela's comments are now. The most recent commenter on her post
on the NJ Fresh Faced Schools Facebook group was from South Carolina.

"I am in agreement with everything in this email chain. As a proud parent of an LGBTQ+ student at Northern, I am horrified by Angela's words and actions. Because she posted in the NJ Fresh Faced facebook group, the story has been picked up and published in the Chaos and Control email newsletter this morning (a far right extremist online publication).

To: Helen Payne <hpayne@nhanover.com>, azuckerman@nburlington.com <azuckerman@nburlington.com>

Cc: GRIMMETT, ROBERT E III Col USAF AMC 87 MSG/CC <robert.grimmett@us.af.mil>, NAIDA, NIKALEAA NF-04 USAF AMC 87 FSS/FSFC <nikalea.naida@us.af.mil>, MATHEWS, STEVEN R CMSgt USAF AMC 87 MSG/SEL <steven.mathews.1@us.af.mil>

Ms. Payne and Dr. Zuckerman,

I hope all is well with you and that you had a great Thanksgiving. I wanted to reach out to the both of you to make you aware of parent concerns regarding recent social media posts presented by Ms. Angela Reading. While I understand she serves as a board member for the Northern Burlington School District, her recent posts to social media impacts military families/students in North Hanover's School District. Ms. Reading has posted several times in both private and public forums expressing how "livid" (her words), she was after seeing a bulletin board display during the recent Math Night at Upper Elementary School. She posted pictures of the children's art work and expressed her belief that the school is "perverse to expose my kids to sexual context." She further proceeded to tell the community there "is never going to be an opt-out" of the health curriculum, and she speaks of this as a private citizen and in her capacity as a board member. In an additional post, she states she is speaking on behalf of her husband Mr. Bryan Reading, who I understand serves as a board member for North Hanover School District, and his thoughts on the subject.

These posts have created a concern for the safety of our military children and families as they could become targets from extremist personnel/groups. The posts are specific in nature to the school, the issue, and some posts exposed parents' names. Furthermore, Ms. Angela Reading encouraged people of like mindedness to attend the monthly BOE meetings and express the same view point. Her initial posts have grown to more groups and recently landed an article titled "Kiddy Sex Posters in North Hanover Township" by Chaos and Control.

Site: <https://chaosandcontrol.substack.com/p/kiddy-sex-posters-in-north-hanover/comments>

I would like to respectfully request that you both look into this matter to ensure the safety of all members moving forward. I asked our concerned parents as to what they thought the right outcome should be and they provided everything from "she should excuse herself for potentially violating ethics violations" to just "removing the post all together with none further."

I have provided Ms. Payne sample posts and can provide to you, Dr. Zuckerman, if needed.

Please let me know if you need anything further

Sir, good afternoon. This really gets under my skin for sure...my thoughts are with the family.

I am sending this to our partners with NJ Office of Homeland Security and Preparedness as well as the NJ State Police Regional Operations Intelligence Center (ROIC). Both agencies analysts keep an eye on far right/hate groups.

Wish I could do more.

Cc: "rdebaecke@northhanovertwp.com" <rdebaecke@northhanovertwp.com>

Officer Duff,

First and foremost, I want to thank you for your service. It is a very difficult time to be a police officer. Your hard work and dedication do not go unnoticed. My family and I are truly grateful for everything you and your fellow officers do. Please let me know if you ever need anything.

With that said, I am deeply concerned with a phone call I received this evening from your high school classmate, who informed me that you used your official government position as Police Chief of North Hanover Township to suggest she remove my post on the NJ Fresh Faced Facebook page. Although she stated you did not issue her a legal mandate, your position as a Police Chief was arguably enough to scare her into compliance.

Legal Context:

As I am sure you are aware, the First Amendment gives everyone residing in the United States the right to hear all sides of every issue and to make their own judgments about those issues without government interference or limitations.

Moreover, the Supreme Court has said that political speech is the most important—and thus most protected—kind of speech in our democracy. To quote Justice Brennan, our country is guided by the principle that debate on public issues should be uninhibited, robust, and wide open.

- I am aware there are limits to the First Amendment; among them are time, place, and manner restrictions, and categorical exceptions such as obscenity, child pornography, and speech that constitutes so-called "incitement," "fighting words," or "true threats."

My Post:

As I am sure you know, my post on Facebook did not violate any law or Facebook code of conduct. First, I posted pictures of anonymous posters, which were hung for the public to see in the main hallway of a tax-payer-funded building (a school). I did not name any student, staff member, or school. I only stated North Hanover Township. Even if I did name the school, that would have been fine. Second, my post respectfully expressed my concerns and did not call for public action or response. I did not threaten anyone, legally incite violence, or violate any provision of the law. As a mother, I shared my opinions (protected by the First Amendment). Because you targeted my post for its explicit critique of the school, this is a form of impermissible viewpoint discrimination under the First Amendment.

Questions:

(1) Teachers, parents, school administrators, and students post pictures **daily** from the school (many with actual pictures of children). Many of the pictures posted **daily** share information about school entry points (security issue), students' names and images (seems like a security issue), and other information that anyone could argue could add "risk" to school security. **Have you ever asked anyone in the past to remove any of their posts?**

(2) Would you have called for my post to be removed if I posted the same pictures with a glowing review of the assignment and posters?

(3) If you had concerns about my post, why was I not contacted directly? Why did you go directly to a content provider on Facebook and request censorship?

(4) Do you know if it's your practice to make personal calls to remove social media posts when you get community complaints?

Final Point

As a mother, I use my voice to challenge the government when I believe they are harming my children. I know that not everyone will agree, and I am ok with that. With that in mind, I am deeply concerned by members of the public linking my personal concerns with my seven-year-old daughter being exposed to terms involving sexual attraction (polysexual and pansexual) with the Colorado shooting and school shootings. This is a form of moral blackmail that should not be tolerated.

The threat of gun violence should be removed from our political discussions because it is inherently flawed, malicious, and self-serving. **Gun violence should not be simplified, politicized, and weaponized to silence dissenting views that don't align with your values.**

Outside of criminal incitement, the horrible and malicious acts of one cannot be blamed on the public/political speech of another. For example, the five Dallas officers killed in 2016 cannot be blamed on BLM or those who advocated violence against police officers. The man who shot a Republican member of congress in 2017 was a Bernie Sanders supporter; however, Bernie Sanders was not to blame. I think you get my point.

Based on the data, we cannot say what does and does not "cause" gun violence in every circumstance. We can only speculate based on the self-reports of shooters if they are even available. Gun violence can often be linked to childhood trauma and mental illness (which seems to be the case for the non-binary shooter in Colorado). We can determine that there is NO objective evidence to suggest that a mother sharing public artwork and a story about her daughter's experience reading such artwork will lead to violence. That is absurd on its face.

The above statements are made in my capacity as a private citizen and not in my capacity as a board member. These statements are also not representative of the board or its individual members and solely represent my personal opinions. My statements are not authorized by or written on behalf of the board. This matter involves the local public school district, I do not serve on the board.

Thank you for your time and support.

Feel free to call my cell at 609-284-6595.

Respectfully,

Angela Reading

Comm: 609-754-4151

Nate,

I just finished speaking with the NB PTSC President and while she is very grateful that the original post was taken down (even though she doesn't know exactly how it happened), she is concerned about one of Angela's comments (attached) that was part of that post and identified the NB PTSC as their meeting location and times are publicly listed on the school website. A number of military parents attend these meetings at the high school, myself included. I'm not sure which agency has jurisdiction over the HS and what it would take for them to have a presence during the PTSC and BOE meetings there, but I wanted to pass along this concern.

Very Respectfully,

Christopher Schilling

 Catherine_lynn_wolfe It's extremely hard to believe that politics have nothing to do with her decision making on the board. Like it or not she is a direct reflection of our BOE and district, and as a member of several "private groups" I can only imagine what is said and discussed within those groups. She might not be speaking for the board, but she is setting a tone with others in those private groups. How much is too much? She is a walking liability....

Chief Duff, good morning.

FYI/SA...I've been sharing same with NJOHSP and NJSP; they are part of our installation Threat Working Group.

Det Burckhardt from NJOHSP shared same with Burlington County Prosecutors Office Counter-Terrorism Coordinator (below email).

He also encouraged if threats are received by your department to report same to the CTWatch desk via CTWatch@NJOHSP.Gov.

Thanks for your time and support sir.

Thank you. This has already been brought to my attention and I'am working closely with the Superintendent. We as a department have not received any credible or reported death threats towards Mrs. Reading or her family. I have been in contact we Mrs. Reading etc and have explained to her to report any such incidents directly to the North Hanover Twp. Police. We will continue to monitor social media and take appropriate action if needed.

Chief Duff

On December 5, 2022 8:32 AM Schilling, Christopher B MAJ USARMY 78 TSD (USA) <christopher.b.schilling.mil@army.mil> wrote:

Chief,

A number of concerning posts (identifying the secretary of CB Lamb on NJ Fresh Faced Schools and one calling for breaking into the school to remove the posters by force) were posted over the weekend and brought to my attention by parents and one attorney that has been watching the situation last night. There was one petition started by a parent at NB calling for Angela Reading's resignation. Angela commented several times stating that you informed her that her original post was fine but she still removed it out of respect. After threats of legal action against the author of the petition, one of her "good friends" started a counter petition with the majority of her original post including pictures the student's poster and statements saying Angela has been receiving death threats. This counter petition has been circulated on many of the right wing sites and drawing quite hateful responses focused toward the school as Angela and her neighbor, a newly elected NH BOE member Anthony Grindlinger, make comments on it to stir the pot. I have attached the screenshots sent to me of the comments identifying the school secretary at CB Lamb and the comment referencing breaking into the school.

The current situation involving Mrs Reading's actions has caused safety concerns for many families.

The Joint Base leadership takes this situation very seriously and from the beginning have had the Security Forces working with multiple state and local law enforcement agencies to monitor the situation to ensure the continued safety of the entire community.

Subject: Community Update

C.B. Lamb School, Endeavour School & Upper Elementary School

To ensure that all students are resilient, lifelong learners who achieve excellence and engage as twenty-first century citizens.

December 1, 2022

Dear NHTSD Parent/Guardians and Staff:

I am writing to you to provide you with some information about recent events that are impacting our school district. As part of the “Week of Respect”, students at our Upper Elementary School (UES) were invited to create a poster that demonstrated that UES was a safe place where everyone was accepted. The activity was voluntary and open-ended, and has been offered to students for the past three years. There was no instruction associated with it.

Some students chose to represent the multitude of ethnicities in our school, some depicted hands of different colors, some displayed messages in sign language, some displayed messages of general acceptance and kindness, and some included content that was supportive of the LGBTQ+ community. On a couple of the posters, this included flags that were labeled for various groups like transsexual, bisexual, lesbian, pansexual, polysexual, etc, along with messages that all people were accepted at their school.

These specific terms from the posters are not part of our curriculum. However, students are continuously exposed to information in their lives beyond what they learn in our schools. These student-created posters represent information that is important to these students, are used in a way that is supportive and kind, and as such represent protected speech under the First Amendment. I have reviewed the recent and historic case law, along with advice from the school board attorney and accordingly find nothing about this student “speech” that would give the district cause to censor it.

We are aware that there have been numerous social media postings about this issue on a variety of pages and sites, some of which identified our students, our school and our community. We are aware that there are strong opinions. Although these opinions are being widely shared by adults outside of our school, I want to assure you that there has been no impact on student learning within the school. School is operating normally.

We are also aware that this has caused safety and security concerns for many families. The safety and security of our students and staff is always of primary importance, and ensuring that has been my first priority, even as we responded to this situation over the past couple of days. I assure you that I have been in continuous close contact with the North Hanover Police and they have been very supportive and present for us. They are taking any risks very seriously, are aware of our concerns and have been working on their end to provide any support we need.

Thank you for your ongoing support of our school district.

Helen Payne

Good morning Lieutenant Colonel Hall,

I am following up on our recent e-mail correspondences. Last night, I received a resignation letter from Angela Reading relinquishing her position on the Northern Burlington Board of Education. I know this doesn't change much of the situation but I did want to make you aware of the update.

All the best and I look forward to meeting you in the future.

Respectfully,

Andrew Zuckerman

Subject: JB MDL Parent Concerns Over Social Media Post by Ms. Angela Reading

Ms. Payne and Dr. Zuckerman,

I hope all is well with you and that you had a great Thanksgiving. I wanted to reach out to the both of you to make you aware of parent concerns regarding recent social media posts presented by Ms. Angela Reading. While I understand she serves as a board member for the Northern Burlington School District, her recent posts to social media impacts military families/students in North Hanover's School District. Ms. Reading has posted several times in both private and public forums expressing how "livid" (her words), she was after seeing a bulletin board display during the recent Math Night at Upper Elementary School. She posted pictures of the children's art work and expressed her belief that the school is

"perverse to expose my kids to sexual context." She further proceeded to tell the community there "is never going to be an opt-out" of the health curriculum, and she speaks of this as a private citizen and in her capacity as a board member. In an additional post, she states she is speaking on behalf of her husband Mr. Bryan Reading, who I understand serves as a board member for North Hanover School District, and his thoughts on the subject.

These posts have created a concern for the safety of our military children and families as they could become targets from extremist personnel/groups. The posts are specific in nature to the school, the issue, and some posts exposed parents' names. Furthermore, Ms. Angela Reading encouraged people of like mindedness to attend the monthly BOE meetings and express the same view point. Her initial posts have grown to more groups and recently landed an article titled "Kiddy Sex Posters in North Hanover Township" by Chaos and Control.

Site: <https://chaosandcontrol.substack.com/p/kiddy-sex-posters-in-north-hanover/comments>

I would like to respectfully request that you both look into this matter to ensure the safety of all members moving forward. I asked our concerned parents as to what they thought the right outcome should be and they provided everything from "she should excuse herself for potentially violating ethics violations" to just "removing the post all together with none further."

I have provided Ms. Payne sample posts and can provide to you, Dr. Zuckerman, if needed.
Please let me know if you need anything further
